MESSAGE FROM THE PRINCIPAL

“If we are to teach real peace in this world, and if we are to carry on a real war against war, we shall have to begin with the children.” – Mahatma Gandhi

This powerful thought reminds us that the foundation of a peaceful world lies in how we guide and educate our children. Today, it is more important than ever to reflect on these words. History has shown us that war and conflict have never truly benefited humanity. Since children are impressionable, the values we nurture in them shape the future of our society. Therefore, it is essential that we teach them the importance of peace, tolerance, empathy and respect for freedom.

School plays a crucial role in this process. Starting with children means integrating empathy, dialogue and respect for differences into the education system. When we encourage understanding and compassion at an early age, we help children develop into responsible and thoughtful individuals who value harmony over conflict.

At Gyan Devi, we strive not only for academic excellence but also for the development of strong values and cultural understanding. We believe that education must nurture a sense of shared humanity, where every child learns to respect others and contribute positively to society. Our initiatives clearly reflect these values. The installation of the Interact Club this year stands as a strong example of our commitment to community service and social responsibility. Our participation in the Children’s Forest Program with OISCA highlights our dedication to environmental protection.

These achievements would not have been possible without the dedication of our school community. I would like to congratulate our teachers and students for their excellent results and their continued hard work. My heartfelt best wishes go to all our students for a bright and successful future. I also extend my sincere thanks to our parents for their constant support and trust in the school. Together, let us continue to nurture responsible, compassionate, and thoughtful young minds.

Wishing you all a successful and enriching year ahead!
