E NEWSLETTER - OCTOBER 2025 TO MARCH 2026

Capt. J.S. Yadav
Chairman
Gyan Devi Group of Schools

Dear Students, Parents and Staff
Education is the most powerful tool that shapes not only careers, but character and courage. At our school, we believe that all children carry within them a spark of greatness. Our mission is to nurture that spark into confidence, creativity and compassion. In a world that is constantly evolving, knowledge alone is not enough. We must cultivate resilience, integrity and the courage to dream big. I am deeply proud of our students who continue to shine in academics, sports, arts and social responsibility. Each achievement

reflects dedication, discipline and determination. To our students, I say: Believe in yourself. Embrace challenges as opportunities. Never fear failure, for it is often the stepping stone to success. Let your curiosity lead you, your values guide you and your hard work define you. As an institution committed to preparing students for tomorrow, we strongly believe in 'Artificial Intelligence for All'. This means that every student and teacher should have the opportunity to understand, explore and responsibly use AI. When used wisely, AI can enhance creativity, improve learning experiences and help us discover innovative solutions to real-world challenges. Dear students, remember that technology is most powerful when combined with imagination, hard work and integrity. Use AI not just as a tool for answers, but as a means to ask better questions, explore new ideas and contribute positively to society. Let us move forward together with confidence, curiosity and a shared vision of learning that is inclusive, innovative and future-ready.
God bless you all

The Path of Discipline

Discipline is a guiding light,
It helps me do what's good
and right.

I wake up early, make my bed,
And feed my mind before I
head.

I finish tasks, both big and
small,

I listen, learn, and give my all.

With discipline, I reach my
goal,

It shapes my mind and lifts my
soul.

- by Vinay Aryan Sah (X)

Our life is a Journey

Our life is a journey not by choice
As progression of humanity
continues

Often we reach for our goal
Lost and found we stumble along.
Our life is a journey of experiments
Through its many twists and turns
We explore hardship and happiness
Our threshold of courage is often
tested.

Our life is a journey wherein we all
Struggle together and accomplish
our goals,

Always striving to be a victor and
never a victim

And be proud that this journey was
the one we chose.

- by Anshika (VII)

From I to You

We embark on a new journey
Let our travels never end
Let's keep heading in the same
direction
Though the track may sometimes
bend.

Let happiness be our destination
Let our trademark be a smile
Let's enjoy every footstep
Not begrudge a single mile.

Let's revel in new discoveries
Greet each other with pleasure
Let's find our inner wealth and
know...

The true meaning of treasure.

KAUSHAL BODH

The National Education Policy 2020 envisages a system of education in the country that is rooted in Indian ethos. Similarly, the NCF-SE 2023, at the middle stage, aims to equip students with the skills that are needed to grow as they advance in their lives. Thus, vocational education has been introduced as a distinct subject, starting in Class VI. The purpose is to promote 'learning by doing', 'dignity of labour' and the development of vocational capacities. In Class VIII, our students took up the project, 'Hydroponic Farming', Class VII students took up 'Storytime with Puppets' while Class VI took up 'Cooking without Fire'. They completed their projects with full enthusiasm and great interest.
